

CENSUS OF NEWFOUNDLAND, 1945

POPULATION OF NEWFOUNDLAND BY SCHOOL ATTENDANCE AND SEX

Report No.
PN-7

(Price: 10 cents)

PREFACE

The tables in this report classify the population of Newfoundland at the 1945 Census by school attendance, years of schooling, and sex, and form part of a series giving final population figures from the 1945 Census of Newfoundland. Previous reports in this series have presented data relating to the subjects of sex, age, marital status, religion, literacy and ethnic origin. Remaining reports will show the population according to such classifications as birthplace, citizenship and movement of population for Newfoundland and the 25 census districts.

Table 37, the first table in this report, is historical, and gives the number of persons 5 to 14 years of age attending school at each census from 1901 to 1945. Tables 38 and 39 show, for Newfoundland as a whole and for the 25 census districts, the population five years of age and over who were attending school at the 1945 Census. The first of these two tables distributes this segment of the population by specified age groups and sex, and the second, by months at school during the school year 1944-45. Finally, Table 40 gives the population ten years of age and over, who were not attending school at the 1945 Census, classified by years of schooling and sex.

The reports in this series represent final tabulated results from the Census of Population, Agriculture and Fisheries, taken by the Newfoundland Government in 1945. These tabulations have been carried out in the Dominion Bureau of Statistics at the request of Newfoundland. Further reports are being released to show classifications of the population by occupation, industry, income, etc., as well as data relating to households and families, and summary compilations of the Census of Agriculture and Fisheries.

Herbert Marshall

Dominion Statistician.

July 19, 1949.

NEWFOUNDLAND
CENSUS DISTRICTS
1945

- 1 - White Bay
- 2 - Green Bay
